### Jack Davis Large & Small Game Chairman Bowhunting Defense Chair

438 Lamplighter Drive  
Camdenton, MO 65020  
Ph. 573-873-9461

### Kent Hayes MBH Youth Shoot Chairman

23601 E. 199th St  
Pleasant Hill, MO 64080  
Ph. 816-616-6238  
[shtgun1@yahoo.com](mailto:shtgun1@yahoo.com)

**Congrats!**

(Above) **Richard Potter**, MBH Member and NFAA Pro, took this Mule Deer near Montrose CO, last month.

(Left) Ten year old **Alec Botkins**, MBH/ NFAA member, harvested his first deer on September 18<sup>th</sup>. It was a 27 yard shot out of a Double Bull blind!

Way to go, Guys!!

**WILD IDEA ARCHERY (MBH-NFAA 11-1-11)** Joey McNish, BofR, 822 Steel St, Seymour, MO 65746, 417-935-2348

## A message from your President

For the first time in many months, things are pretty quiet around the State, as far as MBH goes. That is just fine for this time of year. Many of us would prefer a nice quiet deer stand to all the noise and chaos of our everyday lives. We better enjoy it while we can, because it isn't going to last long.

It seems like the indoor target season starts just a little earlier each year. The big tournaments are just around the corner. Better start dusting off the pretty bows and start thinking about spots. The NFAA State indoor tournament will be held on the 18<sup>th</sup> of December, at multiple locations. Watch upcoming issues of the Release for all that information.

I would like to bring to everyone's attention, the fact that the Release can be read on the MBH website. If you have not checked this out, please do so. It looks great in color and there are other advantages to reading it online, also.

We understand that the RELEASE is an important part of the MBH membership offering. Unfortunately, the monthly expense to create the newsletter exceeds our current income. We want to hear from YOU. Would an increase in dues be acceptable? Do YOU have other income generating ideas to help cover this deficit? What about moving to an upgraded online version that could be delivered via email? These are all things to consider, but we need your input.

This issue will be on the agenda at the January Board meeting. I know this is a hot topic with some of our members, but it needs to be addressed, if we are going to be able to continue as a viable State organization.

Good luck to everyone and remember to send in those game reports to Jack Davis.

Steve

**PeeWee (6 and Under) 10 yds**

\$8 entry - Trophy

**Dust off that target bow and come check out our new indoor range in the country!**

Our winter indoor league has begun and we have established teams at the moment.

We have plenty of room this year, so if anybody wants to come and shoot with us, you certainly are welcome. You do not have to be member; just go by the league rules.

We start shooting at 7:00 pm at the St. Louis Bowhunters range. We have started the season off with the 450 round and will end up the second half with the 300 round.

So far there has been some pretty good shooting going on. We have a lot of fun and are always willing to help new shooters get started. Even if you are a beginner, we will help you get started.

Our members and some others did quite well at the Springfield, Il. Senior Games. Gary Ladd took the Gold medal in the 70-74 age bracket, and Don Will took the Silver medal.

I got the Gold medal in the 75-79 age bracket. Wanda Mehaffy had an accident at the National Senior Olympics in Houston this year. She tripped and broke her wrist, just after checking in. She would have won a Gold Medal if she had gotten the chance to participate. I came in third, and got a Bronze medal. We sure had a lot of fun there.

I talked to Frank Pearson there and his wife Becky had a gall bladder attack, so they were not able to participate. Rich Noble from our club has already taken a nice eight point buck and a turkey within ten minutes on October 1<sup>st</sup>. Congratulations to him.

I have had no luck yet. I had two to walk under my stand, but decided to let them walk. Then a little later got a shot at a really nice deer, (Pope and Young) size. But he was a little out of the range that I thought he was at, so he got away. Sure hope he comes back. I will try not to get so excited and make a much better shot.

Hope to see you all at some of the indoor shoots around. Remember; be careful out there in the woods all of you bowhunters.

Well not too much else right now, so until the next time pick a spot and watch out for that invisible limb waiting to reach out and grab your arrow on the way to a perfect shot at game.

Good luck and remember to be careful up in those tree stands. They make some really good harnesses now and there is no reason not to use one.

# NODAHO BOWHUNTERS, INC.

*Jeanette Brookshier, Secretary*

Our last 3-D shoot of the season was held September 11 on a glorious fall day with another great crowd of archers. I'm always a little sad when 3-D season comes to a close because it's the end of our Wednesday night leagues and picnics that are always such fun. We'd like to thank everyone for attending our shoots this summer – your participation was absolutely GREAT! Another big thank you to our members who always give so freely of their time to clean up, set-up and tear down – we are blessed to have such a wonderful bunch!!!

Congratulations to Teri Fosdick of Bethany whose name was drawn for the Henry Golden Boy .22 mag rifle! She was one excited lady! Congratulations also to Derrick Newberry in the Fun Class and Mike Puckett for the novelty shoot – they both won free shoots for the 2012 season. Full results can be found on our web site [www.nodahobowhunters.com](http://www.nodahobowhunters.com).

We held our annual election of officers recently, and the current officers were voted back in – Shawn Leeper, President; Jesse Camacho, Vice President; Connie Randall, Treasurer; and Jeanette Brookshier, Secretary. Jeremy Mason will remain our B of R to the MBH, and Kirk Patton retains his seat as outdoor range captain.

For you facebook fans, Nodaho Bow Hunters is now on facebook – Nodaho Bowhunters (one word for that) – check it out!

▼ Hope archery season is what you want it to be – be careful out there!!!

### **Your MBH expiration date is included on your mailing label!**

For example, if the expiration is listed as 2011.07, that means you need to mail your dues to the MBH Secretary by the end of July, 2011. Payments for membership renewals should be sent to MBH, P.O. Box 108, Huntsville, MO 65259. The cost is \$25 for an individual membership and \$30 for a family.

## from Cole Duensing.... Technology & Archery Go Hand in Hand

Henry Taylor once said, "The hope, and not the fact, of advancement, is the spur to industry." This premise is exactly what has driven the archery industry for many years now. The bow companies come out with a faster or smoother bow, the sight companies come out with brighter pins, the arrow companies make a straighter arrow, and so on. This year coming is no different. The advancement of the archery industry has been as much as any other industry, except maybe some kind of computer or phone industry. To look at the advancements in the last few years alone is incredible. For instance, we now see carbon fiber material in everything! This extremely strong yet unbelievably light material has dominated the arrow industry for years has now evolved into sights, quivers, and one of the most unmistakable bows of the history of the industry, the Hoyt Carbon Matrix, Element, and Matrix Plus. Another trend in today's bow world is the "speed" bow. Now, whether or not you like these short brace height bows, pushing upwards of 360+ fps, they are still an incredible technological advancement. It will be very interesting to see what the bow companies will focus on as the new bows of the year are, and a few are already, released. Another huge advancement in the industry is arrow technology. Now, we are seeing multi-spine arrows for enhanced down range flight, extremely accurate "fat" shafts, and micro diameter arrows that can penetrate through the thickest game hides. Along with these technology leaps, sights have become more accurate, quivers became lighter, binoculars clearer, tree stands safer, and releases more consistent. All of this has led to the sport of archery opening up to a wider following, improved efficiencies, incredible accuracy, and a more user friendly sport. We have seen archery become a technologically advanced, high tech, improved upon sport that helps us all do what we love the most, ethically kill game animals or pound the center of a target. So the next time you're in the stand or at the shooting line, think about how far we've come. For the advancement in the years to come will lead us into the future and helping make our sport stronger than ever before.

Aim Small and God Bless  
Cole Duensing

## News From The Stump...

By

Kathy Potter

NFAA Director- Missouri

[potter.mbh@cvalley.net](mailto:potter.mbh@cvalley.net)

Hope everybody is enjoying this cooler weather! I know the deer are starting to move. I took my first deer the night before opening day... with the fender of my car. ☹️ Actually, I think the deer left in a lot better shape than my Taurus!

Spot Shooters... You better start dusting off those target bows!! Two major midwest ProAms are opening up registrations this month. If you need any information on these, just reach out and I'll be glad to help you.

The NFAA Council met in Yankton, SD last month for their 2012 planning session. Chuck Cooley (the new NFAA Pro Chairman) gave a recap of the last Pro Meeting. It sounds like they have some great ideas for future growth. You can learn more about Chuck and/or contact him at [www.chuckcooley.com](http://www.chuckcooley.com).

There was also discussion about the high cost of publishing the NFAA magazine. It sounds like there will be future discussions to investigate options.

The Easton Foundation has authorized a grant for the expansion of the Yankton facility that will include the world's first 70-meter indoor range!

The NFAA Yankton facility also boasts a number of very nice outdoor ranges. Some of these were impacted during the summer floods. President Bruce Cull is working with the South Dakota Lieutenant Governor regarding future reconstruction of the flooded ranges to improve safety and beautification.

The Council also agreed to look into various youth shooting programs and determine how NFAA can provide support to help grow the sport of archery and promote NFAA programs and membership.

If you interested in developing your shooting skills, growing your knowledge of the sport or just want to start thinking outside Missouri state boundaries, **please consider becoming part of the NFAA family!** Check out all the details at [www.fieldarchery.com](http://www.fieldarchery.com) ... or contact me! My contact details are on the cover.

Until next month... God Bless!

## Conservation Committee

If you have got a little time to spare in front of a computer you should check out this website, [http://www.fwrc.msstate.edu/carnivore/mo\\_bear/](http://www.fwrc.msstate.edu/carnivore/mo_bear/). This website has the latest info about the Missouri Black Bear Project. The Missouri Department of Conservation along with Mississippi State University has put together a great website where you can learn all about the project. You can even track the bears they have radio collared and see their movements on a map. Be sure to watch the short video on the home page and listen to what MDC biologist Jeff Beringer has to say about how they are captured and the DNA sampling they are doing. The tracking page along with the info about each bear was really interesting. A couple of the males they captured are almost 500 pounders! The really cool thing about this project is that we as hunters can all say we helped restore the bear population in the state of Missouri through the dollars we spend on licensees, archery gear, and other outdoor recreational equipment we purchase every year. Part of the taxes that we pay on our gear goes towards funding projects like this one as well as habitat preservation and improvements.

Hope your hunting season is going well. So far I have gotten out three times but have not loosed an arrow yet. It's still early though and better hunts are coming. By the way in case you were curious, I am still using the Bowtech Compound I just can't seem to convince myself that I can get it done with the Recurve yet! Maybe once I get out of the full time job category, (I really envy the retired group) I can rededicate myself to practice more.

Happy Bow Hunting

Jeff Blystone
