A message from your President

We finally made it. Opening Day has arrived! For the time the temperature has even started to drop a little. It's beginning to feel a lot like Bow Season. Don't forget to take time to send in your large and small game reports to Jack Davis. Every member should be taking advantage of these rewards and recognition. MBH gives away some nice pins, plaques, and even hunting knives in recognition of a successful bow season. Mosquitoes don't count.

As you know, MBH helped sponsor the Missouri 4-H shooting sports team this summer. Both teams did very well and brought back lots of awards to show off. I just want to pass along to all of our MBH members, that I have been receiving hand written thank you cards from all the members on the teams. While these cards came to my address, they are meant to thank everyone in MBH for their support. In this day of electronics, that fact that these young men and women are taking the time to put their thoughts on paper and mail them the "old fashion" way, defiantly says something about the way they are being raised. They are making quite an impression.

We have a great example of what can be done when we, as bow hunters, band together. In August, the MDC notified NWMAC that their range was deemed unsafe for use in the capacity that they had been using it. This was just ridiculous since they have been hosting tournaments at this range for many years. The club sent a letter the MDC with 103 signatures from archers from 4 states praising NWMAC and their efforts to promote the sport and their safety record on the range. After reviewing the facts again, the MDC recertified the range and it will remain open. This is the power of the bow hunters in our state. Great job by all!

Have a great hunting season and be safe,

Steve

MBH STATE OUTDOOR

Your MBH expiration date is included on your mailing label! For example, if the expiration is listed as 2011.07, that means you need to mail your dues to the MBH Secretary by the end of July, 2011. Payments for membership renewals should be sent to MBH, P.O. Box 108, Huntsville, MO 65259.

LARGE & SMALL GAME COMMITTEE

Last month, I wrote about one half of this committee, that being the Large Game portion. The other part, the Small Game, has taken a back seat in recent years, but is still very alive.

The Small Game award is given to that member that has taken small game in Missouri, by the rules and regs set forth by our Mo. Dept. of Conservation (MDC) Points are accumulated for different species taken. Example, kill a raccoon, acquire 5 points, shoot a squirrel, get 4 points, bow fish a long nose gar, 2 points. Once one applies for the small game award, with \$2.00 application fee, I'll send you a form with the point value for all the legal game. I keep a file of everyone that enters this contest, with some reports that go back to the mid-60's, with some very impressive names. After 30 points are acquired, that member will receive a Small Game pin, similar in shape to the Large Game pin. There is no deadline as to how soon one can acquire the 30 points, one, three or ten years. After one receives his/her pin, one can start on the second set of "Thirty Points" at which time that member receives a number "2" with a small gold chain that attaches to the Small Game pin. This process continues to the number "10".

Some years back, in the early 90's, MBH had a King Groundhog Contest. This had a large participation from our members. It seems as though it wasn't too long ago, when MBH sponsored four fish shoots a season. And our local archery club, as well as others, had a club rabbit hunt in January. All the game taken in these events could and many times did, go toward the Small Game Award. When our archery deer season continued to be extended and the antlerless permits became limitless, the participation of the small game hunts seemed to loose out. I don't know about you, but if I had a choice between a rabbit or a nice young doe for the freezer, it would be a no brainer. But as I had stated earlier, the Small Game Award is still present and I get a few participants a year.

Some of you, might have heard about the "Big Rack Classic LLC". I received a form from their organization for me to post in the Release. Apparently, they heard of our organization. Due to limited space, instead of posting their form, I'll pass on a contact for those interested. Big Rack Classic LLC, tele #636-432-2806, bucks@big rack classic.com or open 7-24 .com.

Since some of you might not receive the Release, until after the opening day of the season, I thought it only be appropriate to start with a game report.

Jack Davis, Camdenton, 91b. 10oz. buffalo taken in Camden Co. on Aug. 26th at 9:30pm., first of the night!

I know it isn't what some expected, but it's a start.

During the rut, deer activity is greatest during the morning. Research that Vermont Game Commissioner Wayne Laroche had been conducting for the past 12 years, has shown that during the rut, daytime deer activity peaks during the first two hours of day light. Source: Charles Alsheimer writings in Deer & Deer Hunting. Just thought you'd like to know.

Til next month, Jack

REMINDER: please submit your hunting stories and pictures for publication.

Mission Craze Bow

Big Bird and Daryn Berg, the winner of the Mission Craze Bow at the Nodaho Appreciation Shoot. The Craze and the accessories were donated by Big Birds Bait and Bow.

You didn't have to be a winner to receive a gift of appreciation. It was a beautiful day. The participation was great.

NODAHO BOWHUNTERS, INC.

Jeanette Brookshier, Secretary

Our Night Shoot, Appreciation Shoot and camp-out held August 13 & 14 was a BIG SUCCESS again this year!!! After range set-up on Saturday, we had a couple of rounds of archery golf in the pasture across from the range – what a HOOT! We also had 40 shooters show up for the night shoot with lots of laughter in the woods after dark! Congratulations to Dakota Gross in the kid's division and Nathan Hill in the adult division for their wins.

We had wonderful weather for the Sunday 3-D Appreciation Shoot that I am sure contributed to our large crowd of 203 archers from a 4-State area - 32 of which were 13 or younger. Many thanks to all that came. We also had many prizes to give away thanks to the generosity of area merchants (too numerous to mention individually). Tom & Jenell Ciak of Big Bird's Bait & Bows of Maryville donated a Mission Craze bow complete with accessories and quiver to be given to a lucky youngster. You should have seen six-year old Daryn Berg's expression when his card was drawn as the winner – that was one excited young man! See our web site at www.nodahobowhunters.com for a complete list of winners as well as merchants who donated prizes for the give-away.

Thanks to all that signed the letter at our shoot on behalf of Northwest Missouri Archery Club to the Missouri Department of Conservation to keep their range at the Emmett & Leah Seat Memorial Conservation Area. IT WORKED!!! The conservation agent said they were overwhelmed by the support (112 signatures) and NWMAC will be allowed to resume their 3-D range there next year. See what a bunch of archers working together can do – we're excited for them.

It is hard to believe, but our next shoot on September 11 will be our last 3-D of the year. We will be having our usual used target auction following the shoot – looks like we will have several to auction thanks to the tremendous crowds we've had this year. Hope to see you there!

It is equally hard to believe that archery season is right around the corner – be careful and hunt wisely!

from Cole Duensing....

Oh, The Life of a College Kid

First off, when this *Release* is published, it will be pretty close to BOW SEASON! Happy Bow Season, everybody! Over the months we have worked on our gear, shot thousands of arrows, hung stands, set trail cams, and dreamed about the most wonderful time of the year! Good luck everyone!

Now that I have made it through the transfer from high school to college, I am now settling into the whole “college life” thing. I will tell you the truth; I can relate this experience with archery in many ways. Now, the college atmosphere is quite a bit more relaxed than high school. It reminds me of hittin’ the local conservation department range of a morning in the summer. You can kick back and just fling some carbon! Same at college! You have long passing periods between classes, 45 minute lunches, and very reasonable starting times for classes. You cannot believe how excited I was to hear that on Monday and Wednesday, my classes start at 11! WOOO HOOOO! Also, the classes in college are more open to opinion and discussion. This reminded me of archery shops. In one of my classes, I have already seen people on the verge of duking it out in class over simple topics. Well, I haven’t seen archery discussion quite that heated, but I can’t count how many times I have heard the argument of whether or not a cam and a half system are superior to a binary cam. Hey, maybe that can be a good discussion in English Composition 2! I think I would have a strong argument! Along with that, there is a wide cast of characters in college. You can meet people from almost any back ground, home town, and life story. This is also one of the coolest parts of archery! To go to a shoot and be in a group with people from across the state, if not nation, who has a variety of careers and backgrounds that come together to participate in a common activity is incredible! To have such diverse variations of demographics come together and have a great time while shooting a bow is a fantastic sign for the future of the sport! Finally, in college, you work to advance and grow your education. Archery is precisely the same. We work hours of our life away to improve our shooting ability, shoot higher scores, and to be able to make that one shot count in bow season. This is what both archery and college is all about.

So, in conclusion, college is actually pretty similar to archery in many ways. It is the beginning of the rest of the life to a young scholar and it leads to some incredible experiences in life. Archery leads us to many friendships, challenges, and life lessons while providing us with a sport that is fun and a method to provide ourselves with the finest protein in the world! I am incredibly blessed to be able to attend college and to continue my education into the future.

Aim Small and God Bless

Tree Stand Safety...

The National Bowhunter Education Foundation recommends the following safety tips to reduce the risk of hunting from elevated tree stands:

- Practice with your stand at ground level, gradually going higher. Several Conservation Department shooting ranges and outdoor education centers have practice poles for free public use.
- Know the proper procedure for securing the stand to a tree and how to use the stand properly.
- Read the manufacturer's warnings and instructions before each season.
- Use only stands that meet standards of the Treestand Manufacturer's Association (TMA) rated for your weight plus all gear/equipment you have with you on the stand.
- Always use a fall arrest system that meets TMA standards, which includes a full-body harness rated for your weight and any gear you wear or attach to yourself.
- Have your fall arrest system attached to the tree from the moment you leave the ground, throughout the hunt and when you descend to the ground.
- Always position yourself so that you step down onto your tree stand to test its stability.
- Always use a haul line to raise and lower your gear.

For more details on tree-stand safety from the National Bowhunter Education Foundation, go to www.nbef.org.

2011 MBH STATE OUTDOOR Championship

Held on August 6-7, 2011 (hosted by Independence Bow Hunters.)

MBH STATE OUTDOOR

News From The Stump...

By

Kathy Potter

NFAA Director- Missouri

potter.mbh@cvalley.net

Obviously, many of you have 'outdoor' activities on your mind this month, but I wanted to pass along some Midwest Sectional news...

- Indoor Sectionals for 2012 will be split into 3 locations; Kansas City (MO), Sioux Falls (SD) and Cedar Rapids, (IA). The tournament date is February 25th – 26th, 2012

- The tentative date for Outdoor Sectionals is June 23rd - 24th, 2012. The tentative locations are Coon Rapids (MN) and Kansas City (MO).

- The NFAA Easton Archery Complex in Yankton (SD) is adding an indoor 70 meter range made possible by a grant from the Easton Sports Foundation!

I hope that everybody has a great Fall Bow Hunting Season this year. I've included some treestand safety reminders in this issue and hope you will take time to check your gear and follow the suggestions provided.

My husband will tell you that I'm the LAST person to write about treestand safety because my ideal height (don't laugh) is about 6 feet. I truly do admire those of you that can sit 20+ ft. in the air and sway with the breeze... however, it's just not for ME! Please be safe and make sure to contact us with your fall hunting photos and stories!

Lastly, a big shout out and **THANK YOU** to Columbia Area Archers and all those that participated in Discover Archery Day. Participation was outstanding and it was awesome to see so many people introduced to the sport of archery. Thanks to all of you for representing the NFAA and MBH organizations in such a positive manner! Your efforts are helping to grow this sport!!

If you interested in developing your shooting skills, growing your knowledge of the sport or just want to start thinking outside Missouri state boundaries, **please consider becoming part of the NFAA family!** Check out all the details at www.fieldarchery.com ... or contact me! My contact details are on the cover.

Until next month... God Bless!

Conservation Committee

Be sure to pick up your 2011 Fall Deer & Turkey Hunting Booklet when you buy your Archery permit. There are several changes this year that are listed on page 1 right next to the table of contents. You can also find the booklet online at mdc.mo.gov. I have made a few comments at the end of some of the changes but to make sure you understand the changes read all about them in the 2011 regulation booklet.

The antler point restriction now applies to rural parts of Platte County. *Northern half of Platte Co. now has a 4-pt. rule and has been removed from the urban zone.*

Unlimited archery antlerless permits are now available for Bollinger, Madison, & Wayne counties. *SE part of the state has an increasing doe population in these counties.*

The Kansas City and Columbia/Jefferson City urban zone boundaries have changed.

To avoid conflicting with Halloween, the early youth portion of the firearms deer hunting season has been moved back a week to Nov. 5-6. *Youth get a chance to hunt closer to the peak of the rut this year!*

New managed deer hunts have been added and several others have been modified.

The Conservation Department's e-Permits System will let hunters buy their permits online, print them at home, & have them in hand immediately. *This is a big change from past seasons that will save the MDC lots of money in printing costs. It is more convenient but harder to keep track of and not as durable. Make sure you purchase before hunting.*

Deer and turkey permits will have months printed along one edge & dates along another. Immediately after harvest, hunters must void their permit by notching the month & day they shot their deer or turkey. *Don't forget because agents will be checking to make sure the permits are notched at every opportunity.*

Deer and turkey permits will no longer include a removable transportation tag. Instead, the permit itself will be the transportation tag. *Sandwich baggies & bread tie wraps are handy items for this.*

Deer and/or turkey hunting regulations have changed for St. Stanislaus, Duck Creek & Little River conservation areas.

Happy Bow Hunting
