Happy Independence Day!

Hello Mo. Bowhunters,

Summer is in full swing. In the past month we've had 3 major national events; (London, KY ASA Pro Am, NFAA Midwest Sectionals, and the Metropolis Illinois ASA ProAm); in which many MBH members competed and made our State proud. Kudos to all of you! Our State Outdoor field tournament is right around the corner, MBH 3D is next month, and then it's time to hunt.

Archery is alive and well here in the Show Me State.

As we as a Nation celebrate our Independence Day, I'd like to ask that you take a minute and really think about what we have in this great nation. The freedom to do the things we love to do. The freedom to hunt, the freedom to live and work pretty much as we choose, the freedom to worship as we see fit. Many of these freedoms are under attack like we've never seen before. The so called "silent majority" which I believe is the category

most of us fit in, is starting to wake up. Get involved, speak up for what you believe. Our forefathers worked diligently to give us a country that has been the envy of the world for a reason.

We are Americans....

Happy Independence Day

Jim Forbes

CONSERVATION COMMITTEE REPORT

July is the month to plan and apply for MDC Manage Archery Deer Hunts. In 2015 the Missouri Department of Conservation offered 52 different hunts across the state where you can bowhunt. These hunts are held on Missouri Conservation Areas, County Parks, Management Lands, National Wildlife Refuges, State Parks, and Wildlife Areas. The hunts provide a great opportunity to hunt limited access areas and are strictly managed to limit hunter numbers while providing archery hunting opportunities and managing deer numbers on each property. Hunters are selected by a weighted random drawing system. The “random” part means that everyone has a chance to be drawn for whichever hunt they apply for. The “weighted” part means that if you applied for a managed hunt in a previous year or years and were not selected then your name gets submitted into the drawing more than once. An example would be if you had applied for the Longview Lake County Park hunt in 2014 and 2015 but did not get selected then your name will go into the 2016 hunt draw three times provided you applied in 2016. You can read all of the rules for applying at <http://huntfish.mdc.mo.gov/hunting-trapping/species/deer/deer-managed-hunts>. There is also a great tool on the MDC website to help you figure out which hunt you want to apply for. The Managed Deer Hunt Summaries located at <http://huntfish.mdc.mo.gov/hunting-trapping/species/deer/deer-harvest-reports/managed-deer-hunt-statistics> will provide you with all the hunt statistics over the last several years. Things like you how many hunters applied, your chances of being selected, how many deer were taken and whether they were bucks, does, or button bucks, and hunter success rates.

I have participated in 3 different hunts over the last few years and was successful in one of those. It's a good feeling when you get to participate in a limited access hunt. It's even better when you help to manage the deer herd and get to enjoy your deer backstraps on the grill!

Happy Bow Hunt'in,
Jeff Blystone

LARGE & SMALL GAME COMMITTEE

2016 FIRST SPRING TURKEY AWARD WINNER JIM BRINKMANN!

Jim received a \$25 dollar Bass Pro Shops gift card and a framed certificate for his Tom Turkey harvest on April 19, 2016 at 10:45am. Jim shot the 22 pound tom at 8 yards from a blind in Warren County. Jim also got his second bird of the spring on April 28, 2016. Jim is the most successful MBH archery turkey hunter that I know of. Jim has filled at least 4 turkey tags every year with his archery gear since I started handling the game reports in 2012. I'd be willing to bet his streak is much longer than four years!

ONTARIO BLACK BEAR HUNT

My son Casey and I have been talking about a Canadian Black Bear hunting trip for a couple of years now and we finally decided to make it happen in 2016. In August of 2015 we did some research and made some calls before we decided to book a hunt with Pine Acres Bear Camp in Vermillion Bay, Ontario. When we booked the trip last fall Ontario only had a fall bear season for nonresidents so we decided to hunt the third week of September in 2016. Chris Lavoie at Pine Acres Bear Camp has very good reviews on www.Bowsite.com so I gave him a call and we were all set. Chris was at the Kansas City Sportshow last January so Casey and I went down to talk with him about our hunt. Chris told us then that there was a very good chance that a spring bear season would open for nonresidents for the first time in 18 years and if we could reschedule to come up in the spring it should be a great opportunity to kill a good bear. We kept in touch over the next couple of months and it all came together to move our hunt to May 23-27, 2016. We had never been bear hunting before so we tried to get as much info as possible to help us learn how to judge the difference between a small bear and a shooter bear as well as a male bear compared to a female bear. This spring bear season in Ontario is labeled as a trial to determine if the bear population could withstand a higher harvest rate. In the last few years the bear population in Ontario has grown substantially causing more human/bear conflicts and moose calf mortality from bears, but the Ontario DNR wanted to make sure no sows with cubs are harvested during the spring season leaving cubs' abandoned. Chris gave us some basic things to look for. #1 was to wait until the bear commits to and is comfortable at the bait site. He said if it's a female with cubs the cubs will show up within 5 minutes or so after the sow starts hitting the bait. We should have plenty of time to judge the bear for size and to look for cubs. My bait site was a 55 gallon barrel with a square hole cut halfway up the side and a 12" diameter log stuffed into that hole. The log is supposed to prevent small bears from eating the bait because they cannot get the 50 pound log out of the hole. The bait was a sweet mixture of granola bars, corn syrup, popcorn, orange gummy candy, and lemon pie filling. Trail camera photos at this site had shown 3 different bears. According to Chris one of them was huge, one was a good shooter, and one was a smaller bear. I was hoping to see a few bears so I could get some kind of reference for size and enjoy some bear watching. During the first four hours I was entertained by lots of small Red Squirrels fighting over granola bars from the bait barrel. They actually got quite annoying scolding, chattering, and chasing each other around my stand. After a couple of hours of that I just wanted the squirrels to go away! I thought Missouri squirrels were bad enough but believe me they don't hold candle next to a dozen northern red squirrels. I also saw a Pine Martin come in and grab a bite of granola bar to go. About 45 minutes before dark a large black form appeared out of the swamp and silently headed for the bait barrel. The bear was jet black with a small white star on its chest. It circled the bait barrel; stopped and looked up at me a couple of times then knocked down the barrel and pulled the log out of the hole to get at the popcorn bait. It's the only bear I had seen and after watching and looking for signs of any cubs as well as looking at the size of its head and front shoulders I decided it was big enough for this Missouri bowhunter. I took the 13 yard shot while he was standing very slightly quartering to me. The Beman arrow with a Rage broadhead from my Hoyt passed completely through and the bear ran off towards a big cedar swamp. My stand was located in a very thick spot just uphill from the cedar swamp so I could only see about 30 yards into the forest. I got down after a few minutes to check my arrow, it looked like good blood sign and did not smell like a gut shot, which gave me confidence in the shot placement. When I returned to camp Chris said we would wait until morning to look for my bear. It was a long night of second guessing as to whether I shot a big bear or a small bear that only looked big to this first time bear hunter. Mornings

in bear camp was a little later than I was expecting. I guess when you're on stand until almost 9:30pm and then drive back to camp bedtime doesn't come until midnight or so which makes morning a little later than I am used to. Chris recruited a couple of guys to help us out the next morning and we all took off after my bear about 9 am. We found my bear about 100 yards into the cedar swamp. My arrow had taken out one lung and the liver. I made a good decision to shoot that bear, Chris estimated the boar bruin at almost 300 lbs. and said it would probably make Pope & Young with a better than 18" skull. We'll see if he makes the book after the 60 day drying period. That's the good news, the bad news is if you are ever in an Ontario cedar swamp and need to haul out a 300 lb. Bear just be sure you have plenty of strong help and adequate BUG protection because you gotta haul it out on a gurney while lifting up and over deadfalls and sinking to your knees in the swamp with clouds of mosquitos and black flies around you. Not to mention the wood ticks which are very active in the spring too! Oh well I had the rest of the week to heal up and enjoyed some excellent fishing from the banks of the Wabigoon River. With the help of a couple locals giving me tips on where to fish and what to use I was able to catch walleye, smallmouth bass, pike, and rock bass which provided a couple meals that week and fish to take back to Missouri. One night Casey and I enjoyed walleye fillets and steaks from my bear with wild rice. Two nights later my son Casey killed an even bigger bear. Casey's boar was estimated at 375 lbs. and has a skull that will hopefully make the Boone & Crockett minimum of 20". Casey shot his with his 45-70 Marlin lever action rifle. Each night after everyone returned to camp we talked about the evening hunt and what we had seen or heard. One of the first time spring bear hunters came to camp and told us an interesting story. He said he kept hearing thumping sound that finally annoyed him enough that he got out of his stand to try and help whomever was having trouble with what he thought was an ATV that wouldn't start. As he approached the thumping sound a Ruffed Grouse flushed from cover. He had been listening to the drumming of that grouse and not an ATV motor! We had an excellent trip to Ontario and the bear meat we bought back actually tastes pretty good. It's a darker, richer meat than deer or elk and tastes somewhere between venison and beef to me. I've had grilled backstraps and burger so far. Still need to try the roasts. Bear meat needs to be cooked it to a temperature of 160 degrees for three minutes to kill any parasites still present in the meat so be sure to use a thermometer when cooking your bear meat. Chris knows his bears and is very successful at getting you on a good bear. He has over 40 active bait sites and one of the largest bear management areas in western Ontario. Pine Acres has nice cabins with kitchens. The drive up takes about 14 hours from KC. Vermillion Bay is 3 hours north of International Falls, MN. You can visit Chris's website at www.pineacresbearcamp.ca

Happy Bow Hunt'in,

Northside Archers
St. Louis, Mo.
June 23, 2016

Well here we are in the heat of the old summer time again. But you know, I think that my old bones like the heat better than the icy cold weather.

Our outdoor Tuesday evening league is going strong. The winners for the month of May were: Dan Jasa 1st with an average of 279.8, Bob Sieg 2nd place, with an average of 278.6. Some really nice shooting by some swell fellows and our lady Angie Newell who averaged 275.6.

Dan Jasa swore that one day he was going to clean the Field round. He has shot four 279's in a row now and one 280 round. Mighty fine shooting.

Our range is getting a lot of shooters now. Ever since the Hunger Games movie came out, Archery has been picking up. It is great to see so many new archers. Even my grandson likes to do it. Between his Martial Arts and Archery his mother is always on the run.

Well the National Senior Games is coming up in Birmingham, Alabama next year. We hope our Barebow champion will keep up his streak of Gold Medals.

Our club picnic is in August this year at Old Town St. Peters Park on September 10.

Don Will is to shoot the National Field Archery Association shoot in I think in Darrington this year. We hope he does well. He has to keep his string of attendance going. I don't remember how many he has attended, but he and Rose Lee Pridgen were tied for the most times to attending until Rose came down with that darned old arthritis.

By the time this comes out I guess the Midwestern Sectionals will be history. I hope you all done very well there.

Blue Springs range is a blast to shoot. A new range to shoot on that presents some unique shots. We really have a lot of fun there. Thanks to the Independence Bow Hunters for putting together a great range.

Thanks to everyone that asked about us having an Outdoor Field Round. We are not going to be able to have one as long as the Parks department insists on us having a two million insurance policy for this event. Two hundred and fifty dollars just to put on one shoot is not very cost effective.

The heat of summer is upon us, but we will keep on flingin' them arrows. Until the next time, may all of your arrows find Gold.

Bob Brumback

Springfield Archery Complex

The Springfield Archery Complex is located in SW Greene county just 2 miles outside of Springfield. We have three ranges on the 27 acre property: a 12-lane indoor 18 meter range, a 30 lane FITA range (70 meters) and an NFAA certified 14-target Field Course. We are open Monday-Friday 12:00-7:00 and Saturdays 10:00-1:00. We offer competitions seasonally including field shoots, FITA style shoots and indoor competitions.

We are hosting an American 900 Tournament July 23. The Show-Me State Target Archery Games are July 30 in Columbia. We will host an outdoor 720 FITA Tournament August 13. The Missouri Archery Association/JOAD State Championship is August 20 in Moberly. We will be hosting a Field and/or Lake of the Woods Shoot Saturday, September 3rd in conjunction with the Archery Hall of Fame induction.

For more information visit our website at www.parkboard.org/archery. We are on Facebook search Archery Springfield-Greene County Park Board. Our Tournaments can be found on Archery Events.

Hello MBH members. We would like to thank the 48 shooters who came to our outdoor range and shot in the 2016 Midwest Sectional Championships. Out of the 114 shooters, the MO location had the most shooters and the most winners. Way to go!!!! Attached are the final scores from the shoot. Congratulations to all the Midwest Champions.

Next, July 9-10 we will be hosting the 2016 Missouri State Outdoor Championships. The shooting schedule is 28 Field on Saturday and 14 Hunter and 14 Animal on Sunday. All divisions will shoot B and C ranges except for Master Seniors who will shoot only on C range. The pre-registration deadline is July 5th. Check-in and late registration is Saturday, July 9th starting at 7:30am. A shot gun start will be at 9am. To pre-register for this tournament shooters can mail the form and payment to the address on the form or register online at www.mobowhunters.org.

You will need to be a NFAA/MBH member to compete in the tournament. A concession for Mudcats Baseball will be available both days. Any questions, please call 816-645-2198.

Thank you for all your support!

RULES AND INFORMATION ARE ON BACK

YOUTH TOURNAMENT RULES

1. Registration starts at 7:00am. Rules will be read at 7:45am.
2. Tournament starts at 8:00am and ends at 2:00pm. Weigh-in will be at 3:00pm.
3. This is a 5-fish tournament. A total of 5 fish may be checked in for heavy stringer.
4. All tournament fish will be disposed of for you.
5. Official boundaries are Truman Lake & Lake of the Ozarks.
6. There will be three age divisions:
 - a. 10 years old and younger
 - b. 11 years old to 13 years old
 - c. 14 years old to 16 years old
7. 1st, 2nd, and 3rd places will be awarded in each age group
8. Guides are allowed to help land fish. However, adults will not be allowed to use bows during this tournament. Any aid in landing a fish must come from another youth backing up the shot or by the use of a dip net or gaff hook.
9. Life Jackets must be worn at all times while the big motor is running.
10. Each youth will need to provide his/her own shooting equipment, if a boat is needed we need to know 2wks in advance
11. There will be numerous door prizes for all the kids.

Anyone that wants to be a sponsor.

Anyone interested in signing up to shoot or to guide please contact:

MBH State 3D Rules

Amended 5-15-2016

Statement

This is the official rules for the Missouri Bow Hunters Association's State 3D tournament. These rules have been constructed by the MBH 3D Committee.

Competition Committee

The Competition Committee will be composed of the MBH 3D Chair, MBH 3D Committee members, and the MBH Officers present at the event. The Competition Committee will review all grievances and protests, as well as interpret the rules. All protests filed that could affect the results of the competition must be resolved prior to the next round of competition, or prior to the announcement of final results. All shooters agree to be bound by the decisions of the Competition Committee as final. Also, a general inquiry for an interpretation of a rule may be submitted in writing to the Competition Committee. The Committee will review the submission at its earliest convenience, and a written response will be provided. No fee is required for this review.

Format

The tournament may be formatted as a 1- day or 2-day event. Together, the MBH and the host club will come to an understanding as to which will work best in their particular situation. Stated below are the requirements of both formats:

1 day format:

1. Shooters will be "busted" by random drawing and grouped with competitors in the same class prior to the start of the tournament
2. The tournament will begin with a "shotgun start"
3. The double scoring card system will be used. All score cards are completed and turned in, and verified for accuracy.
4. All classes will shoot off. Any class with more than 20 competitors, the top 5 shooters will shoot in a 5 target shoot off. If the class has less than 20 competitors, the top 3 shooters will shoot in a 3 target shoot off.
5. The shoot off will be formatted as such-
 - A. Competitors will start with their score as it was at the end of the round.
 - B. The score they shoot in the shoot off will be added to their round. If there is ties at the end of the shoot off, there will be a 1 arrow shoot off in the fashion of "closest-to-the-12" style.

2 day format:

1. A shooter must shoot both days.
2. The double score card system will be used both days.
3. First day is a trickle start. Peer grouping according to score will be used on day 2.
4. Day 2 will be started by a shotgun start.
5. There will be no shoot off in the 2 day format, unless a tie in the top 3 must be broken.

Whenever possible, groups will be limited to no more than 5 shooters per group but no less than 3 shooters per group.

Any ties after shoot off will be broken by number of 12 rings. If a top 3 place tie cannot be broken by bonus rings, and if time and weather permit at that tournament, the "Closest-to-the-12" tie breaker procedure will be used. Each shooter will shoot one arrow and the arrow that is closest to the center of the 12 ring will win the shoot off.

Known yardage/unknown yardage mixed range-: Known yardage shooters are encouraged to bring rangefinders as there is no guarantee the club will make a range card depicting yardages. Also, since both known and unknown yardage competitors are shooting the same range and targets, it is preferred that known shooters shoot in groups with their peers, if possible.

The ASA payback scale will be used. This scale can be found at the end of this rule book. There will be no flighting.

Scoring

Scoring: targets shall be scored 12, 10, 8, 5, 0. The center 12 ring shall be the only 12 ring in play.

1. All information on the scorecard must be accurate with all information completely and properly filled in. Information blocks that are incorrect or incomplete will result in a deduction of ten points from their score.
2. If the number of 12 Rings is left blank it will be scored as zero.
3. No changes may be made to the official score card after the scorekeeper and shooter have signed the scorecard. Any changes must be initialed by the scorer and the shooter. If a shooter changes his scorecard after it has been signed by the scorekeeper, the shooter will receive a score of zero for that tournament and will be brought before the Competition Committee for further action.
4. Each group will designate two members of their group as "Scorekeepers" who will record all scores for the group, but they may not maintain their own individual "official" colored scorecard.

5. Three individuals will be designated as "Scorers" but no one will be allowed to score their own arrow. In groups of four the third scorer will be alternated between the scorekeepers for the other scorekeeper's arrow. In groups of three the scoring will be done by all three but an individual may not score their own arrow, or record the official scorecard for their own arrow.
6. Scorers will agree on a score for each arrow and call out the results to be recorded on the respective shooter's scorecards by the Scorekeepers.
7. Scorekeepers will maintain the official colored scorecard for each shooter and be responsible for recording each arrow. A scorekeeper may not keep his or her own "official" card. Scorekeepers will record the total score and total number of 12 Rings at the end of the round.
8. The completed official colored scorecard must be reviewed and signed as correct by the Scorekeeper and the shooter, as well as initial the back of the card. Any shooter turning in an "official" card on which they are both the shooter and scorekeeper will receive a score of zero for that day.
9. The Scorekeepers for each shooting group will turn in the official scorecards for the group together except when a shooter is permitted to make-up targets due to an equipment failure or other approved leave. Shooters assume full responsibility for the accuracy of the information and scores on their cards. Any group that does not turn in their scorecards together before leaving the range will be subject to receiving a score of zero for that round.
10. All arrows must remain in the target until all arrows are scored.
11. The arrow shaft must be touching a portion of the next highest scoring line to be scored for the higher value.
12. All scoring shall be done with the naked eye without the aid of any special magnification with the exception of prescription glasses or contacts.
13. The status of any doubtful arrows must be determined before drawing any arrow from the target. The score is based on the status of the arrow while all other arrows remain in the target. Arrows may not be removed until a scoring judgment has been made and no changes may be made to the score after removal of any arrow.
14. Targets may not be moved or dislodged for scoring purposes.
15. If both Scorers are in agreement, the score will stand. Should the Scorers be unable to reach an agreement, the Scorekeepers (except on a call of their own arrow) will alternate the responsibility of making the final determination before any arrows are removed. Groups will be responsible for calling their own arrows. MBH Officials will not make arrow calls except when a group has only two shooters or during special competitions and shoot-offs.

Shooter and scorers should not move, touch, push, or have any other contact with the arrows prior to scoring.

Any arrow embedded (a "Robin Hood") in the nock of another arrow will be scored the same as the arrow it is embedded in.

Any arrow rebounded off another Arrow (a "Robin Hood" that strikes and damages another arrow and does not proceed toward the target, but bounces back) will be scored the same as the arrow it struck, provided the damaged arrow can be identified.

Target "Pass Through" or "Rebound" without striking another arrow:

- (1) Arrows passing through the front of, but still in, the target will be pushed back and scored,
- (2) If the group agrees that an arrow passed through the targets insert seam, the shooter will be given a score based on the point of pass through not to exceed eight (8) points.
- (3) If the group agrees and confirms that the arrow actually passed through the target due to the high number of arrows that had been shot at the target, the range official is to be notified and the shooter will be allowed to take the score where the "pass-through" occurred as determined by the group up to a maximum score of 10 points or
- (4) If the group agrees that the arrow "rebounded" out of the target without striking another arrow the shooter will be allowed to take the score where the rebound occurred up to a maximum of ten (10) points.

Special Note: A score of 12 will not be permitted under sections 2, 3 or 4 of this rule.

Glance-outs- if the arrow that was originally in the target can no longer be nocked and shot from a bow string, in its condition immediately following the shoot that damaged it, the arrow that glanced off it will be score the same as the original arrow.

Classes/Shooting Rules

Open Classes: May use any compound or recurve bow, sight, release, stabilizer or equipment unless specifically prohibited in any other part of these rules, or by a ruling of the Competition Committee. Overdraws do not designate shoot class or shooting style. Sight type and/or release type is the determining factors for all non-Open classes.

Fixed Pin Classes: No pin limit Stabilizer Rule:

- A. front stabilizer or a system including quick releases, enhancers and/or weights may be used, but may not exceed twelve inches (12") in total length from

the tip of the stabilizer (or system) to the point of attachment on the front of the riser provided by the manufacturer.

- B. A rear stabilizer or counter balance weight system may be used with a maximum of two extensions, but may not extend more than six inches (6") in length as measured from either:
- (1) the point of attachment on the rear of the riser provided by the manufacturer, or
 - (2) if there is no rear point of attachment the system may not extend more than six inches (6") beyond the back of the grip. There are no restrictions for the Unlimited Class.

MBH reserves the right to review any equipment / accessories and determine its suitability for competition. MBH retains the right to waive certain equipment restrictions or shooting rules under specific circumstances for physically challenged competitors. Screw in style points and glue in points are both acceptable. The following equipment / accessories are prohibited in all classes:

- (1) broadheads or any other point or tip not intended for target use;
- (2) retaining mechanisms which allow the bow to be mechanically held in the drawn position;
- (3) laser sights or devices;
- (4) devices or any outside agency (including stabilizer bar or prop stick) that allows the mass weight of the bow to be relieved from either arm while shooting.

A shooter must shoot an arrow of at least 5 grains per pound of bow weight. There is no speed limit on any class or division.

Maximum arrow diameter of .422 will be enforced.

Shooter must either

- 1) be touching the shooting stake with some part of their body or
- 2) straddle the shooting stake with one foot on both sides of the shooting stake and their body directly over the stake.

It is desirable to have no more than 5 shooters per group while on the range and must have at least 3 shooters per group while on the range.

Shooting Divisions

Men's Pro (Pro Card from Archery Organization must be produced)- May use any compound or recurve bow, sight, release, stabilizer or equipment unless specifically prohibited in any other part of these rules, or by a ruling of the Competition Committee. Overdraws do not designate shooting class or shooting style. Sight type and/or release type is the determining factor

for all non-Open classes. This class will shoot all unknown yardages. Max 50 yards. **(Amended 8-23-15)**

Men's Open- May use any compound or recurve bow, sight, release, stabilizer or equipment unless specifically prohibited in any other part of these rules, or by a ruling of the Competition Committee. Overdraws do not designate shooting class or shooting style. Sight type and/or release type is the determining factors for all non-Open classes. This class will shoot all unknown yardages. Max 50 yards.

Men's Known 50- May use any compound or recurve bow, sight, release, stabilizer or equipment unless specifically prohibited in any other part of these rules, or by a ruling of the Competition Committee. Overdraws do not designate shooting class or shooting style. Sight type and/or release type is the determining factors for all non-Open classes. This class will shoot all known yardages. Max 50 yards.

Men's Hunter- No pin limit. Stabilizer Rule: A front stabilizer or a system including quick releases, enhancers and/or weights may be used, but may not exceed twelve inches (12") in total length from the tip of the stabilizer (or system) to the point of attachment on the front of the riser provided by the manufacturer. A rear stabilizer or counter balance weight system may be used with a maximum of two extensions, but may not extend more than six inches (6") in length as measured from either: (1) the point of attachment on the rear of the riser provided by the manufacturer, or (2) if there is no rear point of attachment the system may not extend more than six inches (6") beyond the back of the grip. This class will shoot all unknown yardages. Max 40 yards.

Men's Senior Open (50+, 60+ 70+)- May use any compound or recurve bow, sight, release, stabilizer or equipment unless specifically prohibited in any other part of these rules, or by a ruling of the Competition Committee. Overdraws do not designate shoot class or shooting style. Sight type and/or release type is the determining factors for all non-Open classes. This class will shoot all unknown yardages. Max 50 yards. **(Amended 8-23-15)**

Men's Senior Hunter (50+, 60+, 70+)- No pin limit. Stabilizer Rule: A front stabilizer or a system including quick releases, enhancers and/or weights may be used, but may not exceed twelve inches (12") in total length from the tip of the stabilizer (or system) to the point of attachment on the front of the riser provided by the manufacturer. A rear stabilizer or counter balance weight system may be used with a maximum of two extensions, but may not extend more than six inches (6") in length as measured from either: (1) the point of attachment on the rear of the riser provided by the manufacturer, or (2) if there is no rear point of attachment the system may not extend more than six inches (6") beyond the back of the grip. This class will shoot all unknown yardages. Max 40 yards. **(Amended 8-23-15)**

Traditional- Bow must be either recurve or longbow without wheels or cams. No release aid, no sights, a single stabilizer up to 12" in length measured from the point of attachment, no overdraws, no draw checks, must have one finger touching the arrow nock, and must use one

consistent anchor point. No marks on the sight window, string, or bow to use as an aiming or judging reference. All arrows must be identical in size, weight and construction. This class will shoot all unknown yardages. Max 25 yards.

Women's Pro (Pro Card from Archery Organization must be produced)- May use any compound or recurve bow, sight, release, stabilizer or equipment unless specifically prohibited in any other part of these rules, or by a ruling of the Competition Committee. Overdraws do not designate shoot class or shooting style. Sight type and/or release type is the determining factors for all non-Open classes. This class will shoot all unknown yardages. Max 50 yards.
(Amended 8-23-15)

Women's Open- May use any compound or recurve bow, sight, release, stabilizer or equipment unless specifically prohibited in any other part of these rules, or by a ruling of the Competition Committee. Overdraws do not designate shoot class or shooting style. Sight type and/or release type is the determining factors for all non-Open classes. This class will shoot all unknown yardages. Max 40 yards.

Women's Known 40- May use any compound or recurve bow, sight, release, stabilizer or equipment unless specifically prohibited in any other part of these rules, or by a ruling of the Competition Committee. Overdraws do not designate shoot class or shooting style. Sight type and/or release type is the determining factors for all non-Open classes. This class will shoot all known yardages. Max 40 yards.

Women's Hunter - No pin limit. Stabilizer Rule: A front stabilizer or a system including quick releases, enhancers and/or weights may be used, but may not exceed twelve inches (12") in total length from the tip of the stabilizer (or system) to the point of attachment on the front of the riser provided by the manufacturer. A rear stabilizer or counter balance weight system may be used with a maximum of two extensions, but may not extend more than six inches (6") in length as measured from either: (1) the point of attachment on the rear of the riser provided by the manufacturer, or (2) if there is no rear point of attachment the system may not extend more than six inches (6") beyond the back of the grip. This class will shoot all unknown yardages. Max 30 yards.

Women's Senior Open (50+, 60+ 70+)- May use any compound or recurve bow, sight, release, stabilizer or equipment unless specifically prohibited in any other part of these rules, or by a ruling of the Competition Committee. Overdraws do not designate shoot class or shooting style. Sight type and/or release type is the determining factor for all non-Open classes. This class will shoot all unknown yardages. Max 40 yards. **(Amended 8-23-15)**

Women's Senior Hunter (50+, 60+ 70+)- No pin limit. Stabilizer Rule: A front stabilizer or a system including quick releases, enhancers and/or weights may be used, but may not exceed twelve inches (12") in total length from the tip of the stabilizer (or system) to the point of attachment on the front of the riser provided by the manufacturer. A rear stabilizer or counter balance weight system may be used with a maximum of two extensions, but may not

extend more than six inches (6") in length as measured from either: (1) the point of attachment on the rear of the riser provided by the manufacturer, or (2) if there is no rear point of attachment the system may not extend more than six inches (6") beyond the back of the grip. This class will shoot all known yardages. Max 30 yards. **(Amended 8-23-15)**

Young Adult Male/Female (15-17 years old)**- May use any compound or recurve bow, sight, release, stabilizer or equipment unless specifically prohibited in any other part of these rules, or by a ruling of the Competition Committee. Overdraws do not designate shoot class or shooting style. Sight type and/or release type is the determining factor for all non-Open classes. This class will shoot all unknown yardages. Max 40 yards. **(Amended 5-15-16)**

Youth Male/Female (12-14 years old)**- May use any compound or recurve bow, sight, release, stabilizer or equipment unless specifically prohibited in any other part of these rules, or by a ruling of the Competition Committee. Overdraws do not designate shoot class or shooting style. Sight type and/or release type is the determining factor for all non-Open classes. This class will shoot all unknown yardages. Max 30 yards. **(Amended 5-15-16)**

Cub Male/Female (9-11 years old)**- May use any compound or recurve bow, sight, release, stabilizer or equipment unless specifically prohibited in any other part of these rules, or by a ruling of the Competition Committee. Overdraws do not designate shoot class or shooting style. Sight type and/or release type is the determining factor for all non-Open classes. This class will shoot all unknown yardages. Max 25 yards. **(Amended 5-15-16)**

Pee Wee Male/Female (8 and under)**- May use any compound or recurve bow, sight, release, stabilizer or equipment unless specifically prohibited in any other part of these rules, or by a ruling of the Competition Committee. Overdraws do not designate shoot class or shooting style. Sight type and/or release type is the determining factor for all non-Open classes. This class shoots all unknown yardages. Max 20 yards. **(Amended 5-15-16)**

****Age of competitor as of the first day of the tournament.**

NOTE: Due to differences in range finders, target distances set according to the club's range finder may vary slightly from competitors' range finder distances.

Calendar of Events

2016

January 2-3 ☐ Iowa Pro-Am ☐ Des Moines, IA
