Hello MBH,
Seems like a long time since we've talked but it's been a little busy around here. We are in the heat of summer and many outdoor activities and tournaments. Many of you have been following what has happened to Barb Frazier (Jim Frazier's better half) but many of you may not know the story. Jim was found with an Aortic aneurysm towards the end of April and spent several days in the ICU, a couple surgeries, and then recovery time. He is physically doing fine. He'd been out of the hospital about a week when Barb ended up in the same ICU on life support for nearly 3 weeks. All from one of those nasty little creatures we all deal with (as best we can tell) a tick... This family has been struck hard and the road ahead will be a long one. Many of you will see donation jars etc. at many

shoots. Please do what you can. Folks, I have personally witnessed miracles happen and GOD's hand in this when times were very dark.

Story Inside... Page 4

....Presidents message continued.

Myself and a few others were forever changed by it. Things happen in the blink of an eye.

Never forget what is truly important and prioritize accordingly. Archery is an awesome part of our lives, but it's the people in it that make it a worthy endeavor.

Make sure those you care for know it....

Thanks for letting me ramble,

Jim Forbes

MBH President

LARGE & SMALL GAME COMMITTEE

Turkey season for me was frustrating. I spent 7 days sitting in a blind trying to convince those pea brained birds to come close enough for an archery shot! It just never happened. I did spend a couple of mornings afield with the shotgun and was successful one of those mornings so at least I got a little meat in the freezer. The wet weather and the ticks were especially challenging this season. I can't change the weather but I have learned a trick or two about dealing with those blood sucking ticks. **PERMETHRIN** yep that's the good stuff to keep those ticks from ever getting to your skin. Permethrin is used to treat your hunting clothing; it's deadly to ticks and can last on your cloths for several weeks. You can buy it in spray cans at retailers like Bass Pro, Walmart, and Cabela's but it costs a little more that way. What I do is visit my local farm stores like Tractor Supply or Feldman's and buy the concentrate permethrin livestock spray. If you buy it by the quart it usually comes in a 10% concentrate solution. You will need to dilute that down to a 1% solution before you spray your cloths. About 1 oz. of the concentrate to 1 gallon of water will kill every tick that comes into contact with your cloths. Mix it in a garden pump type sprayer and hang you hunting gear, pants, shirts, socks, boots, gloves, hat, backpack, and whatever else you might be wearing into the field on a clothesline and spray it down liberally with the permethrin solution. Let it completely air dry before you put your hunting gear on. The stuff dries odorless and will work for 3 to 4 weeks. I have been doing this to my gear for the last 10 years and believe me it works, most of the time the ticks never make to your skin because they either jump off or die when they contact the treated clothing. Once or twice a year I still get bit but considering the amount of time I spend in the field and forest I would be ate up without doing this treatment on my clothes. Just make sure and check every inch of your skin for ticks each day you have been in the field. I also use the spray cans as a quick and easy solution for protection when I go outside to hike or shoot my bow outdoors. You may consider the spray costly but Doctors and Hospitals will cost you a lot more! Although tick borne disease is still rare it's becoming more common in our area and with the mild winters it seems the tick population is increasing. Don't let tick bites and a tick borne disease keep you off the range and outta the field, just learn how to protect yourself and in my book permethrin is the #1 weapon against ticks!

Happy Bow Hunting,

Jeff Blystone

CONSERVATION COMMITTEE REPORT

I attended my first Pope & Young Convention this past April in St. Louis and was very impressed with not only the record book animals but also the people attending the convention. I guess I had expected big name bowhunters' that I had read about and seen on TV to consider themselves somehow better than this lowly bowhunter from Missouri who has never taken an animal that would qualify for the book. But everyone I spoke with was truly friendly and passionate about bowhunting whether it be for backyard whitetails or giant brown bears in Alaska. I figured out these guys are a lot like me and you. The biggest difference is they have decided to pursue their passion for bowhunting using every resource they can. Lots of the "big name" bowhunters are not superhuman, they don't walk, talk, see, shoot, stalk, or hunt any better than you or I they have just decided to spend every dollar and every vacation day traveling from Alaska to Mexico doing what they love. They miss shots, blow stalks, or get winded by game just like you and I. They also love to talk hunt'in and have some great stories to tell. There were lots and lots of great seminars and workshops over the four days. I only got to sit in on one of those but the hour and a half I spent listening to Frank Noska talk about non-resident bowhunting in Alaska was well worth it. My wife Kim and I also volunteered to help with the live auction on Saturday. Our job was to help with the set-up which gave me a neat opportunity to get up close and personal with Fred Bear's famous hat. Each convention they auction off a "sponsorship" of the hat until the next convention. The hat is displayed at the Pope & Young Museum in Chatfield, MN with a name plaque of the current sponsor. The awards banquet that evening was also a special treat. Seeing the top animals harvested by bowhunters over the last two years including new World Records for Typical American Elk, Desert Bighorn Sheep, Shiras Moose, and Non-Typical Coues Deer. Kim and I hung around on Sunday and volunteered to help with the re-crating and loading of the trophy mounts that had been displayed during the last four days.

We very much enjoyed working with the other volunteers as well as the Pope & Young Staff that morning. So I would encourage you to mark down early April 2019 as your next chance to attend the Pope & Young Convention in Omaha Nebraska! In the meantime you can learn more about becoming a member of the Pope & Young Club at <http://pope-young.org/>.

Happy Bow Hunt'in,

Jeff Blystone, 816-806-3574, jandkbly@gmail.com

2017 POPE AND
YOUNG
CONVENTION

Missouri Bow Hunters Association

19th Annual

Youth Bowfishing Tournament

Saturday July 8, 2017

Registration begins at 7 AM at Bledsoe Ferry

(Below Truman Lake Dam)

The tournament runs from 8 AM – 2 PM

YOUTH 16 YEARS OF AGE AND YOUNGER MAY SHOOT.

YOUTH SHOOT IS FREE OF CHARGE!

FREE COOKOUT FOLLOWING THE SHOOT! LOTS OF DOOR PRIZES!

A day of fun for the whole family!!

SPONSORS

BowfishingExtreme.com

Many anonymous cash donations

Youth Tournament Rules

1. Registration starts at 7:00 AM. Rules will be read at 7:45AM.
2. Tournament starts at 8:00AM and ends at 2:00PM. Weigh in will be at 3:00PM.
3. This is a 5-Fish tournament. A total of 5 fish may be checked in for heavy stringer.
4. All tournament fish will be disposed of for you.
5. Official Boundaries are Truman Lake & Lake of the Ozarks.
6. There will be three (3) divisions as follows:
 - A. 10 Years old and younger.
 - B. 11 years old to 13 years old.
 - C. 14 years old to 16 years old.
7. 1st, 2nd, and 3rd places will be awarded in each age group.
8. Guides can help land fish. However, adults will not be allowed to use bows during this tournament. Any aid in landing a fish must come from another youth backing up the shot or using a dip net or gaff hook by an adult.
9. Life jackets must be worn always while the big motor is running.
10. Each youth will need to provide his/her own shooting equipment, if a boat is needed we will need to know 2 weeks in advance.
11. There will be numerous door prizes for all the kids.

Anyone that would like to be a sponsor, help guide, or interested in shooting please contact:

MBH State 3D Rules

Amended 7-10-2016

Statement

This is the official rules for the Missouri Bow Hunters Association's State 3D tournament. These rules have been constructed by the MBH 3D Committee.

Competition Committee

The Competition Committee will be composed of the MBH 3D Chair, MBH 3D Committee members, and the MBH Officers present at the event. The Competition Committee will review all grievances and protests, as well as interpret the rules. All protests filed that could affect the results of the competition must be resolved prior to the next round of competition, or prior to the announcement of final results. All shooters agree to be bound by the decisions of the Competition Committee as final. Also, a general inquiry for an interpretation of a rule may be submitted in writing to the Competition Committee. The Committee will review the submission at its earliest convenience, and a written response will be provided. No fee is required for this review.

Format

The tournament may be formatted as a 1- day or 2-day event. Together, the MBH and the host club will come to an understanding as to which will work best in their particular situation. Stated below are the requirements of both formats:

1 day format:

1. Shooters will be "busted" by random drawing and grouped with competitors in the same class prior to the start of the tournament
2. The tournament will begin with a "shotgun start".
3. The double scoring card system will be used. All score cards are completed and turned in, and verified for accuracy.
4. All classes will shoot off. Any class with more than 20 competitors, the top 5 shooters will shoot in a 5 target shoot off. If the class has less than 20 competitors, the top 3 shooters will shoot in a 3 target shoot off.
5. The shoot off will be formatted as such-
 - A. Competitors will start with their score as it was at the end of the round.
 - B. The score they shoot in the shoot off will be added to their round. If there is ties at the end of the shoot off, there will be a 1 arrow shoot off in the fashion of "closest-to-the-12" style.

2 day format:

1. A shooter must shoot both days.
2. The double score card system will be used both days.
3. First day is a trickle start. Peer grouping according to score will be used on day 2.
4. Day 2 will be started by a shotgun start.
5. There will be no shoot off in the 2 day format, unless a tie in the top 3 must be broken.

Whenever possible, groups will be limited to no more than 5 shooters per group but no less than 3 shooters per group.

Any ties after shoot off will be broken by number of 12 rings. If a top 3 place tie cannot be broken by bonus rings, and if time and weather permit at that tournament, the "Closest-to-the-12" tie breaker procedure will be used. Each shooter will shoot one arrow and the arrow that is closest to the center of the 12 ring will win the shoot off.

Known yardage/unknown yardage mixed range-: Known yardage shooters are encouraged to bring rangefinders as there is no guarantee the club will make a range card depicting yardages. Also, since both known and unknown yardage competitors are shooting the same range and targets, it is preferred that known shooters shoot in groups with their peers, if possible.

The ASA payback scale will be used. This scale can be found at the end of this rule book. There will be no flighting.

Scoring

Scoring: targets shall be scored 12, 10, 8, 5, 0. The center 12 ring shall be the only 12 ring in play.

1. All information on the scorecard must be accurate with all information completely and properly filled in. Information blocks that are incorrect or incomplete will result in a deduction of ten points from their score.
2. If the number of 12 Rings is left blank it will be scored as zero.
3. No changes may be made to the official score card after the scorekeeper and shooter have signed the scorecard. Any changes must be initialed by the scorer and the shooter. If a shooter changes his scorecard after it has been signed by the scorekeeper, the shooter will receive a score of zero for that tournament and will be brought before the Competition Committee for further action.
4. Each group will designate two members of their group as "Scorekeepers" who will record all scores for the group, but they may not maintain their own individual "official" colored scorecard.

5. Three individuals will be designated as “Scorers” but no one will be allowed to score their own arrow. In groups of four the third scorer will be alternated between the scorekeepers for the other scorekeeper’s arrow. In groups of three the scoring will be done by all three but an individual may not score their own arrow, or record the official scorecard for their own arrow.
6. Scorers will agree on a score for each arrow and call out the results to be recorded on the respective shooter’s scorecards by the Scorekeepers.
7. Scorekeepers will maintain the official colored scorecard for each shooter and be responsible for recording each arrow. A scorekeeper may not keep his or her own “official” card. Scorekeepers will record the total score and total number of 12 Rings at the end of the round.
8. The completed official colored scorecard must be reviewed and signed as correct by the Scorekeeper and the shooter, as well as initial the back of the card. Any shooter turning in an “official” card on which they are both the shooter and scorekeeper will receive a score of zero for that day.
9. The Scorekeepers for each shooting group will turn in the official scorecards for the group together except when a shooter is permitted to make-up targets due to an equipment failure or other approved leave. Shooters assume full responsibility for the accuracy of the information and scores on their cards. Any group that does not turn in their scorecards together before leaving the range will be subject to receiving a score of zero for that round.
10. All arrows must remain in the target until all arrows are scored.
11. The arrow shaft must be touching a portion of the next highest scoring line to be scored for the higher value.
12. All scoring shall be done with the naked eye without the aid of any special magnification with the exception of prescription glasses or contacts.
13. The status of any doubtful arrows must be determined before drawing any arrow from the target. The score is based on the status of the arrow while all other arrows remain in the target. Arrows may not be removed until a scoring judgment has been made and no changes may be made to the score after removal of any arrow.
14. Targets may not be moved or dislodged for scoring purposes.
15. If both Scorers are in agreement, the score will stand. Should the Scorers be unable to reach an agreement, the Scorekeepers (except on a call of their own arrow) will alternate the responsibility of making the final determination before any arrows are removed. Groups will be responsible for calling their own arrows. MBH Officials will not make arrow calls except when a group has only two shooters or during special competitions and shoot-offs.

Shooter and scorers should not move, touch, push, or have any other contact with the arrows prior to scoring.

Any arrow embedded ("Robin Hood") in the nock of another arrow will be scored the same as the arrow it is embedded in.

Any arrow rebounded off another Arrow (a "Robin Hood" that strikes and damages another arrow and does not proceed toward the target, but bounces back) will be scored the same as the arrow it struck, provided the damaged arrow can be identified.

Target "Pass Through" or "Rebound" without striking another arrow:

(1) Arrows passing through the front of, but still in, the target will be pushed back and scored,

(2) If the group agrees that an arrow passed through the targets insert seam, the shooter will be given a score based on the point of pass through not to exceed eight (8) points.

(3) If the group agrees and confirms that the arrow actually passed through the target due to the high number of arrows that had been shot at the target, the range official is to be notified and the shooter will be allowed to take the score where the "pass-through" occurred as determined by the group up to a maximum score of 10 points or

(4) If the group agrees that the arrow "rebounded" out of the target without striking another arrow the shooter will be allowed to take the score where the rebound occurred up to a maximum of ten (10) points.

Special Note: A score of 12 will not be permitted under sections 2, 3 or 4 of this rule.

Glance-outs- if the arrow that was originally in the target can no longer be nocked and shot from a bow string, in its condition immediately following the shoot that damaged it, the arrow that glanced off it will be score the same as the original arrow.

Classes/Shooting Rules

Open Classes: May use any compound or recurve bow, sight, release, stabilizer or equipment unless specifically prohibited in any other part of these rules, or by a ruling of the Competition Committee. Overdraws do not designate shoot class or shooting style. Sight type and/or release type is the determining factors for all non-Open classes.

Fixed Pin Classes: No pin limit Stabilizer Rule:

- A. front stabilizer or a system including quick releases, enhancers and/or weights may be used, but may not exceed twelve inches (12") in total length from the tip of the

stabilizer (or system) to the point of attachment on the front of the riser provided by the manufacturer.

- B. A rear stabilizer or counter balance weight system may be used with a maximum of two extensions, but may not extend more than six inches (6") in length as measured from either:
- (1) the point of attachment on the rear of the riser provided by the manufacturer, or
 - (2) if there is no rear point of attachment the system may not extend more than six inches (6") beyond the back of the grip. There are no restrictions for the Unlimited Class.

MBH reserves the right to review any equipment / accessories and determine its suitability for competition. MBH retains the right to waive certain equipment restrictions or shooting rules under specific circumstances for physically challenged competitors. Screw in style points and glue in points are both acceptable. The following equipment / accessories are prohibited in all classes:

- (1) broadheads or any other point or tip not intended for target use;
- (2) retaining mechanisms which allow the bow to be mechanically held in the drawn position;
- (3) laser sights or devices;
- (4) devices or any outside agency (including stabilizer bar or prop stick) that allows the mass weight of the bow to be relieved from either arm while shooting.

A shooter must shoot an arrow of at least 5 grains per pound of bow weight. There is no speed limit on any class or division.

Maximum arrow diameter of .422 will be enforced.

Shooter must either

- 1) be touching the shooting stake with some part of their body or
- 2) straddle the shooting stake with one foot on both sides of the shooting stake and their body directly over the stake.

It is desirable to have no more than 5 shooters per group while on the range and must have at least 3 shooters per group while on the range.

Shooting Divisions

Men's Pro (Pro Card from Archery Organization must be produced)- May use any compound or recurve bow, sight, release, stabilizer or equipment unless specifically prohibited in any other part of these rules, or by a ruling of the Competition Committee. Overdraws do not designate shooting class or shooting style. Sight type and/or release type is the determining factor

for all non-Open classes. This class will shoot all unknown yardages. Max 50 yards. **(Amended 8-23-15)**

Men's Open - May use any compound or recurve bow, sight, release, stabilizer or equipment unless specifically prohibited in any other part of these rules, or by a ruling of the Competition Committee. Overdraws do not designate shooting class or shooting style. Sight type and/or release type is the determining factors for all non-Open classes. This class will shoot all unknown yardages. Max 50 yards.

Men's Fingers - May use any compound or recurve bow, sight, stabilizer or equipment unless specifically prohibited in any other part of these rules, or by a ruling of the Competition Committee. Overdraws do not designate shooting class or shooting style. Sight type and/or release type is the determining factors for all non-Open classes. This class will shoot all unknown yardages. Max 40 yards. **(Amended 7-10-2016)**

Men's Known 50 - May use any compound or recurve bow, sight, release, stabilizer or equipment unless specifically prohibited in any other part of these rules, or by a ruling of the Competition Committee. Overdraws do not designate shooting class or shooting style. Sight type and/or release type is the determining factors for all non-Open classes. This class will shoot all known yardages. Max 50 yards.

Men's Hunter - No pin limit. Stabilizer Rule: A front stabilizer or a system including quick releases, enhancers and/or weights may be used, but may not exceed twelve inches (12") in total length from the tip of the stabilizer (or system) to the point of attachment on the front of the riser provided by the manufacturer. A rear stabilizer or counter balance weight system may be used with a maximum of two extensions, but may not extend more than six inches (6") in length as measured from either: (1) the point of attachment on the rear of the riser provided by the manufacturer, or (2) if there is no rear point of attachment the system may not extend more than six inches (6") beyond the back of the grip. This class will shoot all unknown yardages. Max 40 yards.

Men's Senior Open (50+, 60+ 70+) - May use any compound or recurve bow, sight, release, stabilizer or equipment unless specifically prohibited in any other part of these rules, or by a ruling of the Competition Committee. Overdraws do not designate shoot class or shooting style. Sight type and/or release type is the determining factors for all non-Open classes. This class will shoot all unknown yardages. Max 50 yards. **(Amended 8-23-15)**

Men's Senior Hunter (50+, 60+, 70+)- No pin limit. Stabilizer Rule: A front stabilizer or a system including quick releases, enhancers and/or weights may be used, but may not exceed twelve inches (12") in total length from the tip of the stabilizer (or system) to the point of attachment on the front of the riser provided by the manufacturer. A rear stabilizer or counter balance weight system may be used with a maximum of two extensions, but may not extend more than six inches (6") in length as measured from either: (1) the point of attachment on the rear of the riser provided by the manufacturer, or (2) if there is no rear point of

attachment the system may not extend more than six inches (6") beyond the back of the grip. This class will shoot all unknown yardages. Max 40 yards. **(Amended 8-23-15)**

Traditional - Bow must be either recurve or longbow without wheels or cams. No release aid, no sights, a single stabilizer up to 12" in length measured from the point of attachment, no overdraws, no draw checks, must have one finger touching the arrow nock, and must use one consistent anchor point. No marks on the sight window, string, or bow to use as an aiming or judging reference. All arrows must be identical in size, weight and construction. This class will shoot all unknown yardages. Max 25 yards.

Women's Pro (Pro Card from Archery Organization must be produced) - May use any compound or recurve bow, sight, release, stabilizer or equipment unless specifically prohibited in any other part of these rules, or by a ruling of the Competition Committee. Overdraws do not designate shoot class or shooting style. Sight type and/or release type is the determining factors for all non-Open classes. This class will shoot all unknown yardages. Max 50 yards. **(Amended 8-23-15)**

Women's Open - May use any compound or recurve bow, sight, release, stabilizer or equipment unless specifically prohibited in any other part of these rules, or by a ruling of the Competition Committee. Overdraws do not designate shoot class or shooting style. Sight type and/or release type is the determining factors for all non-Open classes. This class will shoot all unknown yardages. Max 40 yards.

Women's Fingers - May use any compound or recurve bow, sight, stabilizer or equipment unless specifically prohibited in any other part of these rules, or by a ruling of the Competition Committee. Overdraws do not designate shoot class or shooting style. Sight type and/or release type is the determining factors for all non-Open classes. This class will shoot all unknown yardages. Max 40 yards. **(Amended 7-10-2016)**

Women's Known 40 - May use any compound or recurve bow, sight, release, stabilizer or equipment unless specifically prohibited in any other part of these rules, or by a ruling of the Competition Committee. Overdraws do not designate shoot class or shooting style. Sight type and/or release type is the determining factors for all non-Open classes. This class will shoot all known yardages. Max 40 yards.

Women's Hunter - No pin limit. Stabilizer Rule: A front stabilizer or a system including quick releases, enhancers and/or weights may be used, but may not exceed twelve inches (12") in total length from the tip of the stabilizer (or system) to the point of attachment on the front of the riser provided by the manufacturer. A rear stabilizer or counter balance weight system may be used with a maximum of two extensions, but may not extend more than six inches (6") in length as measured from either: (1) the point of attachment on the rear of the riser provided by the manufacturer, or (2) if there is no rear point of attachment the system may not extend more than six inches (6") beyond the back of the grip. This class will shoot all unknown yardages. Max 30 yards.

Women's Senior Open (50+, 60+ 70+) - May use any compound or recurve bow, sight, release, stabilizer or equipment unless specifically prohibited in any other part of these rules, or by a ruling of the Competition Committee. Overdraws do not designate shoot class or shooting style. Sight type and/or release type is the determining factor for all non-Open classes. This class will shoot all unknown yardages. Max 40 yards. **(Amended 8-23-15)**

Women's Senior Hunter (50+, 60+ 70+)- No pin limit. Stabilizer Rule: A front stabilizer or a system including quick releases, enhancers and/or weights may be used, but may not exceed twelve inches (12") in total length from the tip of the stabilizer (or system) to the point of attachment on the front of the riser provided by the manufacturer. A rear stabilizer or counter balance weight system may be used with a maximum of two extensions, but may not extend more than six inches (6") in length as measured from either: (1) the point of attachment on the rear of the riser provided by the manufacturer, or (2) if there is no rear point of attachment the system may not extend more than six inches (6") beyond the back of the grip. This class will shoot all known yardages. Max 30 yards. **(Amended 8-23-15)**

Young Adult Male/Female (15-18 years old)**- May use any compound or recurve bow, sight, release, stabilizer or equipment unless specifically prohibited in any other part of these rules, or by a ruling of the Competition Committee. Overdraws do not designate shoot class or shooting style. Sight type and/or release type is the determining factor for all non-Open classes. This class will shoot all unknown yardages. Max 40 yards.

Youth Male/Female (12-14 years old)** - May use any compound or recurve bow, sight, release, stabilizer or equipment unless specifically prohibited in any other part of these rules, or by a ruling of the Competition Committee. Overdraws do not designate shoot class or shooting style. Sight type and/or release type is the determining factor for all non-Open classes. This class will shoot all unknown yardages. Max 30 yards. **(Amended 5-15-16)**

Cub Male/Female (9-11 years old)** - May use any compound or recurve bow, sight, release, stabilizer or equipment unless specifically prohibited in any other part of these rules, or by a ruling of the Competition Committee. Overdraws do not designate shoot class or shooting style. Sight type and/or release type is the determining factor for all non-Open classes. This class will shoot all unknown yardages. Max 25 yards. **(Amended 5-15-16)**

Pee Wee Male/Female (8 and under)** - May use any compound or recurve bow, sight, release, stabilizer or equipment unless specifically prohibited in any other part of these rules, or by a ruling of the Competition Committee. Overdraws do not designate shoot class or shooting style. Sight type and/or release type is the determining factor for all non-Open classes. This class shoots all unknown yardages. Max 20 yards. **(Amended 5-15-16)**

****Age of competitor as of the first day of the tournament.**

NOTE: Due to differences in range finders, target distances set according to the club's range finder may vary slightly from competitors' range finder distances.
